A FEW IRIS POINTERS

If plant Iris late in fall, then cover plants with brush, cornstalks, tomato vines, excelsior, or any coarse material until early spring. This is to prevent alternate freezing and thawing in winter. No protection after first winter needed in our section.

Remove covering early in spring. Am told that protection is often given on old as well as young plants in the Mississippi Valley and farther east. Straw, hay, excelsior, corn stalks, brush, etc., are used. Avoid too much covering right on top of the plants.

I usually protect my late Iris plantings simply by throwing a ridge of soil over the rows with a small hand plow, shovel or hoe, covering everything. In this case I cut the tops back nearly to the rhizomes, planting more like bulbs than plants. Very important to pack soil firmly about the roots and see that they enter the winter in the soil not dried out, though much moisture not needed or desirable. Level the soil early in spring.

Annual Fall
SALE OF

GLADIOLUS BULBS

At Digging-Time Prices--Fall Delivery

It's good business to buy Glads in the fall. Fall buying gives you the pick of the stock, assures your getting the varieties and sizes you want and at very reasonable prices.

We recommend buying at least part of one's Gladiolus bulbs in the fall, for several reasons.

One doesn't feel it so much if he buys part of his Glad bulbs in the fall instead of waiting until spring.

"The cream of the crop" is what we promise our fall Glad buyers.

Then, too, it's fun having your bulbs and bulbets right where you can watch them and keep them safely through the winter. Just to "paw them over" from time to time, and visualize the rare and beautiful spikes of bloom they will produce, is no small compensation, as any real fan will know.

We don't claim that fall prices are always lower than in spring. Sometimes otherwise. But we fill the fall orders so liberally that the customer is 'way to the good anyhow.

Three Size Glad Bulbs

The **LARGE BULBS** measure (in diameter) from 1 1/4 inches up, mixed sizes. (Part No. 1 and part No. 2 sizes.) This size is designated by the letter "**L**".

MEDIUM BULBS measure 3/4 inch to an inch or larger, mixed sizes. (Part No. 3 and part No. 4 sizes.) These Medium Bulbs bloom splendidly, though the large bulbs make still larger spikes and more of them. Medium bulbs are designated by the letter "**M**".

NOTE: If sold out No. 1 size, we may send all No. 2 for Large, but more of them. If out No. 3, will send all No. 4 but more of them. Usually have enough so can send as noted above, however.

SMALL BULBS are designated by the letter "**S**". They will average nearly half-inch in diameter. Not sold as blooming sizes, yet many will bloom.

NOTE: It will help us in filling your Glad bulb orders if you will mention the size each time: Large, Medium, Small, or just the letters **L, M** or **S**.

Prices, Terms, Delivery

Gladiolus prices are guaranteed for this fall only--until our spring catalogue is mailed in January. Many of these offers will be withdrawn altogether in January.

Each item on your Glad order must amount to not less than 10c.

TERMS: Cash with order, or 1/4 cash with order, balance C. O. D. Or send 1/4 with order, and balance any time before shipment.

DELIVERY: (Except wholesale lots.) We pay all postage or express charges, and guarantee safe delivery. (Our choice, whether parcel post or express.)

If your express office is different from your mail address, please be SURE to give express office address also when ordering.

Right now when many prices rise,

We may be wrong, we may be wise.

To make OUR prices somewhat lower,

And help each eager garden grower.

To carry out this noble plan,

Some frills and costs we've had to can--

Send out a modest catalogue,

And not, this year, put on the dog.

If You Pay P. P. or Express

All Glad bulbs in this catalogue are priced **PREPAID**, except wholesale lots.

BUT many customers have been much pleased with our special proposition.

If the customer pays express on Glads priced prepaid, we will send extra Glads to more than offset the express charges. We'll send extra bulbs of kinds on your order, or some good kinds, our selection, or maybe both.

If order part from wholesale list and part from prepaid lists, you will find it much to your advantage to do as many others have done. Just say, "Send all at my expense and add more Glads to **COVER SENDING COSTS ON PREPAID ITEMS.**"

Send No Money for P. Post

Express is often cheaper than parcel post, as bulbs take a special low rate by express.

But if you specify parcel post shipment and you pay carrying charges, then we ship C. O. D. for postage. Please do not send any money in such cases for postage or try to estimate it. Nor say you will remit for postage later.

We keep no postage accounts. Either express, you pay express on arrival, or parcel post, the postage C. O. D.

Any Glads priced prepaid may be ordered f. o. b. Boulder, at the prepaid prices, but we then send you more than enough extra stock to offset the carrying charges. (Order should be \$3.00 or more to take advantage of this offer.)

Safe Delivery Guaranteed

We ship bulbs all winter. Prefer to ship soon as order received, because have so many other shipments in spring. But, of course, will hold until spring if you say so. Safe delivery guaranteed. You take no risk, no matter when we ship.

SPRING DELIVERY. We will store orders amounting to \$4.00 or more upon payment of 25 per cent or more on the order this fall.

But so far as possible, we need to ship Glad bulbs **THIS FALL** and early winter. Short on storage room.

Long's Long Count

As all our old customers know, your GLAD orders will be filled most liberally. We could promise you more for your money, but we like to surprise you by doing better than our offer. The larger the order, the more liberal the overcount.

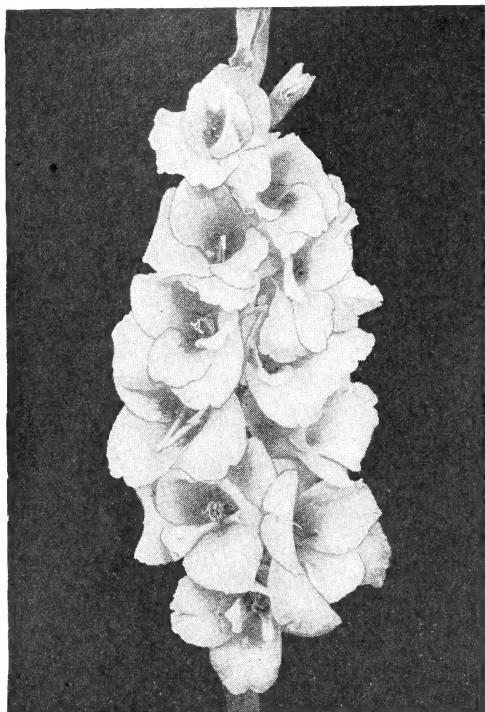

NOTICE Our fall Glad prices are made out early. If we are too low on some items, that's your good luck. If a bit high, we'll send plenty more Glads to adjust. Thus prices are in **YOUR** favor "in the Long run."

Special Price on Large Lot

Send list for price on the lot, if you care to, but only for good sized lots, not a list amounting to only a few dollars. We'll make you price f. o. b. Boulder on the list. Please state definitely the kinds, sizes and quantities of each wanted.

New Zealand Splendor Glad

A New Super Glad "New Zealand Splendor"

(Originated by W. R. Toon, New Zealand)

Probably the best Glad introduced into U.S.A. from New Zealand.

The plant and spike sturdy and strong. Blooms large. Many open. A crooked spike or misplaced bloom "very unusual".

The color is medium pink, with throat blotch of orange-scarlet. The shade varies somewhat, depending on soil and weather.

The florets set close to the spike, and are well faced and spaced. They look you right in the eye.

New Zealand Splendor is a Picardy and Mrs. S. A. Errey seedling. Thanks to Canada and Australia as well as New Zealand.

A large successful commercial grower bought a few "Splendor" bulbs last season. Wrote us: Zealand Splendor did fine. Made beautiful spikes. I like the placement of the florets and their leathery texture. Looks to me like a comer.

The sturdy growth of the plant impressed me. That is lacking in a lot of good Glads today.

N. Z. SPLENDOR: (L. 40c; 3—\$1.00; 10—\$3.00) (M. 25c; 3—60c; 10—\$2.00) (S. 15c; 3—40c; 10—\$1.20). (No bulblets to spare.)

New Zealand Splendor makes a hit.
No other name could better fit.

Please do not order in smaller quantities than listed. (5 or more bulbs at the 10 rate; but must amount to not less than 10c.)

No single item less than 10c. Five bulbs at the 10 rate, unless otherwise noted.

Airy Dream (Baerman.) Apple blossom pink. (L. 30c; 3—75c; 10—\$2.40) (M. 20c; 3—50c; 10—\$1.60).

Algonquin tops the giant reds.

Add this when plant your Gladdy beds.

That Glad looks good enough to eat.

White Spire (Kinyon.) Mammoth blooms of white. (L. 30c; 3—75c) (M. 20c; 3—50c).

Zuni (Mitsch.) Some experts say this is today the world's No. 1 Smoky Glad. A rich, sparkling silvery-rose, lit by a large terra cotta throat. (L. 10c; 3—25c; 10—80c) (M. 2—12c; 10—50c) (S. 3—10c; 10—30c).

Tall Zuni now brings up the rear.
Loud praise for it is all we hear.

Exhibition Mixed

Each order mixed from fine named varieties, our selection, none labeled.
(L. 12—50c; 50—\$1.80; 100—\$3.20) (M. 12—25c; 50—\$1.00; 100—\$1.75).

Scrambled Stars

If any Glad grower makes believe he never gets some stocks mixed, the only difference between him and me is that I admit I'm human and do pull some boners. There might be some difference in volume, but the truth is we all make mistakes. And if we can't make enough mistakes ourselves, our helpers come to the fore and make some for us.

Therefore, I do not hang my head as though it were a disgrace to say that this season we find most all of our STAR OF BETHLEHEM mixed with Picardy. If you were to set out purposely to make a "Two-In-One" mixture, you would have to go some to find two finer Glads for mixing.

Can't say just what proportion of each in this scrambled lot. More in some rows than in others. Think the Stars in the majority.

Rewi Fallu made good again this year. This is one of those Glads you should cut before many blooms open. Let most of the buds open indoors. Land sakes alive! Such fine, rich red mammoth blooms! And on good straight spikes, too.

Our 1942 Spring Catalogue

If sent too early, the catalogue may be lost—or the pup may get hold of it and chew it up—before you are ready to order. If too late—well, that's just too bad for you and us both.

Will try to get the catalogues into the mails around January 25th.

If you ordered goods, or requested catalogue last year, you don't need to write for your copy. **Your name is on our preferred list.**

Regarding Order Blanks

Please don't ever feel you must use any special form of order sheet.

But use just any kind, shape, size or color paper you can lay hands on. Use pencil if more convenient than pen. Write plainly. Use a separate line for each item you order.

"Glad Gossip," 10 Cents

"Glad Gossip" is a 24-page booklet I wrote to help both amateurs and professional growers get the most pleasure and profit from their Glads. Doesn't tell all there is to know about Glads, but tips you off about many points of vital interest.

Among other things, about eight pages are given to **thrips**. Many who followed my suggestions last season solved their thrips problems, and have renewed their enthusiasm for growing Glads as a hobby or for market.

The price is 10 cents. If not worth 10 cents then it isn't worth sending for. **It's been worth dollars to many Glad growers.** You'll be surprised.

Free with Glad orders amounting to 50c or over, if asked for when order is sent. Otherwise, 10c please.

To Large Buyers: Growers, dealers and others who can use large quantities of a variety, or a good big order of assorted varieties of Gladiolus bulbs or bulletts, please mail me a definite list of the kinds, sizes and quantities. Will make a special price on the lot, f. o. b. Boulder. This is for large lots. Do not send me lists of a few bulbs of a kind for special quotations.

Some Bulbs Sold "As Is"

... You Clean

IMPORTANT: Read conditions carefully and save yourself and us needless correspondence.

Notice carefully that some varieties listed per 100 are followed by a tiny star (*). Starred kinds sold "AS IS" per 1,000 also.

The varieties marked thus with stars are the only kinds that we offer "AS IS."

"AS IS" means we send the bulbs without removing the old bulbs and roots.

Only sizes No. 3, 4 and 5 are offered "AS IS." The "AS IS" offer applies also only to quantities of 25 or more of a kind and size.

Here's where you come in. No change in prices is made for the "AS IS" stocks. There are far too many prices to keep track of already. But we pay you for your work, by sending more bulbs than we would send if we do all the cleaning.

Flower Seeds to Sow Late This Fall

Wait until very late in fall if seeds not sown before Sept. 15th. Now this is the important idea, and for the sake of your own success, don't miss it. The idea is to sow the seed so late that it will not start to germinate before spring. Keep mulling that over in your head and you will at least start right.

Vital point regarding sowing of ANNUAL flower seeds is not to sow early enough in fall that they will begin to grow before winter. Therefore, have your seeds on hand, and keep your eye on the calendar.

Delphiniums and Columbines do especially well if seed sown real late in fall. Many of the Delphiniums will bloom freely the next summer. This is true of California Poppies, Iceland Poppies, Snap Dragons and some other perennials and biennials. Well worth trying.

Catch this secret. Sow your flower seeds late in fall the usual way in well prepared soil. Then protect the bed by spreading straw, hay, excelsior torn fine and flaky, corn stalks, or any old trash, held in place with poultry wire well staked down, or brush—anything that will prevent the winds from blowing away the soil and seed. Remove covering early spring.

New Low Express Rates on Flower Bulbs and Roots

For years flower bulbs and roots have been carried by the Railway Express Agency at second class rates.

That was fine. But NOW even that special lower rate has been reduced still more.

Seems too good to be true, but is true. With reservations. As I understand it, this new rate, known as Commodity Rate, applies to all states east of Montana, Wyoming, Colorado, New Mexico, plus a narrow strip along east side of New Mexico, extending as far west as Roswell.

I'm talking about shipments from Boulder, Colorado, but understand these rates apply on shipments in any part of the U. S. A. east of states named.

Just why the new low rates apply to the east and not to west of Boulder, I do not know. Maybe because it is a down hill pull from Boulder east, whereas, going west it is an up hill pull over the Rockies. (Of course my theory won't hold water, but sounds a bit logical, anyway.)

As you know, parcel post renders wonderful service and at reasonable rates. Is especially helpful within the first few zones, and for light packages in any zone. Parcel post rates are the same for all or nearly all, classes of goods, for packages over 8 ounces, as I understand it.

But we flower folks are highly favored in that we get special low rates on our line of goods, when shipping by express.

By all means, be SURE to name your EXPRESS OFFICE if it is different from your postoffice address.

If shipment is prepaid basis, we can afford to fill your order more liberally if we ship by express.

If you order on F. O. B. basis, and YOU pay the carrying charges, you just naturally want to save about a third (on the average) of delivery costs.

Express shipments are automatically insured, at no extra cost up to \$50.00.

Now don't forget—give us your express office. We will figure out best way to ship. The saving is noticed especially on packages weighing 5 pounds or more.

Colorado Sales Tax should be added to each order sent me by Colorado folks. No tax required from other states. Verily, as the Denver Post says, "It's a privilege to live in Colorado!"

Timely Tulip Talk

As you know, for generations most of the Tulip bulbs sold and planted in the U. S. A. came from Holland.

American bulb growers are doing fine work producing Tulip bulbs that bloom satisfactorily. Often the shape and appearance of the domestic bulbs are not so pleasing as the "Dutch" grown stocks. But they do grow, thrive and bloom G. K.

But this upset in Tulip bulb supply came too suddenly for our own growers to meet the demand fully. Planters can't expect to secure anything like such a wide range of kinds and colors as formerly.

Now in view of the fact that any variety is likely to sell out quickly, while we may still have a supply of another kind in same color class, as good, we are offering this fall under **COLORS ONLY.** Also mixed kinds and colors.

All are high grade named varieties, such as: In pinks, Clara Butt, Princess Elizabeth, Venus. In Reds, the popular F. Sanders, Grenadier, Spat. Major. For white Miss Blanch, maybe others. For yellow, the tried and true Inglescombe Yellow.

We suggest that you order by **COLOR** only, though O. K. if you mention any these varieties, BUT tell us we may send another kind, as above, or maybe some other that we still have when order is received. We will go as far as we can complying with your wishes, but want to avoid correspondence. **Say whether to send another kind if we can, or to refund.**

Colors: Pink, Yellow, White, Red.
